## About Me

Hi, I'm Aditya, an undergraduate at IIT Patna pursuing a B.S. in Computer Science and Data Analytics. I'm passionate about blending finance, technology, and data — from coding in C++ and Python to analyzing markets and building projects around trading, analytics, and research.

Currently, I'm preparing for the CFA Program and certifications like NISM/NCFM to deepen my knowledge in investments and portfolio management. My goal is to build a career at the intersection of quantitative finance and technology, contributing to innovative solutions in fintech, trading, and research.
